Subject: Status of Tier IV Lab Report /Data from TechLaw Subcontracted Labs

Hi Fred -

It is my understanding that TechLaw has subcontracted with the following labs for the following analyses w/ the Tier IV turnaround noted:

- 1) Northeastern Environmental Lab (Bacteria) - w/ Tier IV lab report to ESAT 14 calendar days from the end of the SDG shipment
- 2) Pace Analytical (Ethylene Glycol) - w/ Tier IV lab report to ESAT 21 calendar days from the end of the SDG shipment
- 3) Test America (Glycols) - w/ Tier IV lab report to ESAT 21 calendar days from the end of the SDG shipment
- 4) Isotech - (Methane Isotech) w/ Tier IV lab report to ESAT 28 calendar days from the end of the SDG shipment

Based on the above info and sampling conducted - ESAT should be seeing the 1st Tier 4 reports for the bacteria results this week for the 1st SDG for sampling conducted from 1/23 - 1/127/12. I would appreciate it if you could check to see whether ESAT has received this data yet.

Please contact me with any questions.

Thanks - Kelley
